EGEC, Egyptian for Engineering &Commerce

1- Supply, installation and operation of the electrical panels of all kinds :
Under license from **Schneider Electric** company and assembly of paintings from the manufacture **TempaPano** (IP 55, 65,66)

2- The field of electrical contracting in general :
Installation of cables, ground systems, fire extinguishing systems, light current systems and electrical panels
Medium Voltage system (Transform ,Distributions , Cables) installation and supplying .

3- Field supplies & Installation:

- Motors and Drive from the production **ABB** company
- sensors of all kinds (Capacitive ,inductive, magnetic, linear displacement measuring devices , Photoelectric, Laser, Viper, identify colors and images)
  from the German **BALLUFF** & from the Japan **OPTEX** company
- sensors and heat meters, Digital measuring devices, digital variable resistance, Solid Stat, relay, digital timers)
  from the Turkish Enda company.
- Miniature circuit breakers , molded, air, capacitors and power factor correction organizations, Engines Movement primers and Chapter keys from **Schneider Electric** .
- Electrostatic plates, stainless steel plates, plates against the explosion from the Turkish **TempaPano** company.

- Automation control systems and instrumentation (PLC,HMI, Servo motor , servo Drive)using
SIEMENS , **BALLUFF** , **Schneider Electric** ,**GMT**
- we are able to provide complete solutions for the electrical projects field as we can supply and manufacture low voltage panels electrical contracting business and deliver turn key projects.
